- WHY:** The Women's Breast & Heart Initiative is a non-profit 501 (c)(3) organization that educates at-risk women about breast and heart health and the benefits of prevention, wellness and early detection. Proceeds help fund community outreach, education, and services provided to women in our underserved communities. During door-to-door neighborhood outreach, breast and heart health advocates provide at-risk women with breast and heart health awareness, education, screening, referrals, physical activity and nutrition sessions and provide these women with fresh fruits, vegetables, and healthy eating guides. Care coordination and patient navigation is provided to all participants.
