

JUNE – JULY 2017: RAINIER MADRUGA

Rainier Madruga was proudly selected as the June-July 2017 WBHI Volunteer of the Month because of his dedication and commitment to the organization over the past three years. Rainier, a Miami native, is a Business Analyst for Assurant, a corporate partner of WBHI. In 2014, he was introduced to the organization because Assurant served as a volunteer meeting location for WBHI's October door-to-door outreach campaigns in Cutler Bay. He served as a volunteer and graciously made sure WBHI and its volunteers felt welcomed. Since participating in his first outreach campaign, Rainier continued to participate in outreach because of his love for the mission. In 2016, Rainier joined the Community Partners Leadership Program. He experienced the direct and immediate impact WBHI makes in the community to change and save lives.

Rainier said that his favorite part about outreach is the people that he meets and the difference you make in their lives just through the simple act of knocking on a door and providing them with resources. It's amazing how much personal benefit you receive from knocking on someone's door.

Thank you, Rainier!
